Advanced Wall Protection

The technical innovation of **P3TEC**
debuts in a new collection of
Advanced Wall Protection
with three performance advantages:

 **IMPACT**

 **CHEMICAL**

 **ABRASION**

P3TEC Advantage

Performance

PROTECT AGAINST

🎯 IMPACT

P3TEC is engineered to withstand an impact force much greater* than other wall protection and wallcovering products. By retaining its unique physical flexibility upon impact P3TEC provides superior wall protection to damage from carts and other moving objects.

CHEMICALS

Protected with a cap film, P3TEC resists surface damage from the harshest chemicals and staining agents*. Spray paint, permanent markers and more can be easily removed, leaving P3TEC unblemished and unstained.

ABRASION

To protect against surface damage from contact with items like chair backs and wheeled devices, P3TEC provides exceptional* abrasion resistance.

P3TEC Advantage

Easy to Use

By the Roll

Compared to 4' x 8' rigid sheets, P3TEC ships, handles and installs easily, in 15-yard rolls, with no need to lay flat until ready to install.

Seamless Covering

Give your walls a full-height, continuous look. No need to install rigid sheets horizontally, and no caulk, reveals or connection pieces are required. The only accessory you need is coordinating corner guards for outside corners.

Installation

Using techniques from Type II wallcovering, P3TEC installs simply with wallcovering adhesive, and is easily trimmed around permanent fixtures.

Contact distributor for installation instructions.

3. Adhesive

4. Trim

P3TEC Advantage

Design

The key breakthrough of P3TEC is the compelling collection of eleven designs, with ten emboss textures, and 200 color choices. Bring the look of silk, linen and wovens to high-traffic, high-abuse areas in healthcare, food service, transportation and much more.
